Powered by

Gold
Microsoft Partner

GITS Consulting was established in 2012 by few competent and yearly experienced professional consultants with the same and strong vision to help our clients generate more value to their businesses to make a better future.

GITS Consulting is a **Gold Microsoft Certified Partner** specializing in Enterprise Resource Planning (ERP) implementation, support, and development services. We will deliver the right business technology to help our clients create competitive advantage and deliver effective business.

Our values are:

- G** – Give the best and trustable consultants to help our customers achieve their goals
- I** – Increase the performance by giving suitable technology for the right and secure IT infrastructure to join global businesses
- T** – Treat our customers personally in order to get their confidence with our services including analysis, design, training, and implementation
- S** – Supply the newest updated technology that brings businesses to gain more competitive advantage

OUR SPECIAL CAPABILITIES

MANUFACTURING

GITS is experienced in various manufacturing fields such as fisheries, plastics, musical instruments, garden equipments, motor spares parts, chemicals, etc. We provide solutions to build efficient operations from upstream to downstream business processes.

DISTRIBUTION

There is a growing importance of data-driven process in the distribution business. Boost your company to have a real-time tracking distribution process and result in a more effective business, especially with our experience in handling FMCG, fertilizers, and other fields.

RETAIL

Ensure your business meets the fast moving market that can adapt to various conditions and regions. We have been handling restaurant, bread shop, and café chain managements that shows our familiarity in the retail business, successfully being in the top and leading market.

SERVICE INDUSTRY

GITS can help you boost your customer management, design it to manage projects with flexibility and differentiation for the best services your customers can get. High level of understanding in the logistics and forwarding services, and experience in Multinational School and IoT services company, show our flexibility and extensive scope of services.
